Select a Business Template
Quickly set up inventory tracking with one or more your configured templates. You, can customize setting alerts.
Select a Business
This setup screen allows you to jumpstart your inventory by choosing a pre-configured template tailored to your specific industry. Each template includes pre-configured product categories and default low stock alert thresholds, saving you from manual setup.
Office
Perfect for managing inventory of office stationery, tech hardware, and supplies. Includes 5 focuses on monitoring "Pro Levels," so your team knows exactly when to buy more to stay productive.
Checklists vs. Dashboard
Low stock Alerts
Enter Thermostat
Workshop
Designed for managing inventory of specialized tools, raw materials, and high-value hardware. This template helps teams durably tracking and organizes items by location or maintenance cycle.
Factory Clients
Recommended
Retail Hub
Perfect for high-velocity setup with pre-set alerts specifically for fast-moving consumer goods and seasonal inventory before stockouts run out.
Carrying Phones
Custom
Start with a blank canvas to build an inventory system that matches your unique workflow from scratch. This is ideal for niche businesses with highly specific data fields or non-traditional storage structures.
